## Foreword

The major thrust of the division's recent socio-legal research on Inuit (Eskimos) and the administration of criminal justice has been an evaluation of their adaptation to Canadian law-ways and formalized agencies of social control. However, one of the findings of this and other research, confirmed at the recent Edmonton Conference on Native Peoples and The Criminal Justice System, has been an expression of doubts by aboriginal peoples as to whether these existing structures, including the judiciary, can effectively deter or deal with the anti-social behaviour of native offenders or ensure the adequate protection of possible victims or members of the community.

In response to this issue, the division engaged Susan Karamessines to prepare a bibliography on the American Indian Tribal Court System for distribution to native peoples and others in their consideration of alternative models to adjudication.

H.W. Finkler,  
Northern Research Division

## Author's Note

The subject of United States Indian tribal courts is a broad one, encompassing the traditional Indian law-ways which are (increasingly) reflected in the modern tribal court system; the history of the development of the courts from the 19th century courts of Indian offenses and the U.S. government's various Indian policies and laws; and the recent and current development of the courts themselves, and of the delineation and clarification of their powers and jurisdiction.

This bibliography, completed in less than four months and plagued during the first two by the Canadian postal strike, is not an exhaustive work on the subject. It is general, in that it attempts to provide at least an introduction to all of the aspects of the subject mentioned above. Since these aspects overlap in many of the individual works, the bibliography is generally divided according to the material's sources, rather than by subject.

It should be noted that, as with most subjects related to native peoples, the most accessible material is not of native origin. An attempt was made, however, to discover as many of these works as possible within the limitations of time and budget. Some which are cited here are unpublished; and many important documents, especially recent tribal constitutions, law codes and individual laws, which are not successfully collected anywhere, do not appear here.

In this bibliography, important sources of Indian points of view are the works by associations such as the National American Indian Tribal Court Judges Association and others; and the testimony, by representatives of Indian tribes, courts and associations, before the various Congressional committees. In addition, much unpublished material is held by the Native American Rights Fund, National Indian Law Library (1506 Broadway, Boulder, Colorado, cited herein as NILL) and is available on request.

The Native American Rights Fund's Subject Index to Indian Legal Materials and Resources is used in the section on Articles in Legal Periodicals, with the express permission of that organization.\*

The many people who gave assistance, information and advice during the course of this work are too numerous to mention here individually. I gratefully acknowledge their help.

Susan Karamessines

Gubler, Brent H. A constitutional analysis of the criminal jurisdiction and procedural guarantees of the American Indian. Doctoral thesis, Syracuse University, 1963. 378 p.

Thoroughly covers constitutional language, the role of Congress, the various jurisdictional questions, and the constitutional status of Indians and tribal governments. The 3 provisions of the U.S. Constitution which refer directly to Indians do not provide a national authority to assert criminal jurisdiction over Indians and Indian territory. Thus the legal status of the Indians has its roots in international law and power politics, and not in the Constitution. Concludes, in part, that the constitutionality of the federal governments' assumed power to regulate Indians "...would seem to be doubtful". 344 (avail. from R & E Research Associates, 936 Industrial Avenue, Palo Alto, Calif. 94303. \$10.00).

\_\_\_\_\_. Indian police and judges: experiments in acculturation and control. New Haven, Yale University Press, 1966.

The courts of Indian offenses, established and controlled by the federal government in the late 19th century, were the precursors of contemporary tribal courts. This is a thorough account of the imposition of these courts on the tribes, and of the first Indian police forces. The circumstances and motivation for the courts' establishment, and the role they played in altering the relationship between the U.S. government and the tribes, are described. Includes information on specific courts and judges, the latter's relationships with the Indian agents who appointed and eventually paid them, and tribal reactions and factionalism.

In Indiana Historical Society Lectures 1970-71: American Indian Policy.  
 Indianapolis, Indiana State Historical Society, 1971.

The reservation system was designed to accomplish the 'civilization' of the tribes through a five-part formula: education, isolation, self-sufficiency, Christianity and a system of law. Examination of the practical results of each element reveals that only the establishment of a system of law was successful.

Critically examines the issues, and the actions and intent of agencies and persons involved in the evolution of this law. Concludes that judges who use it ... "to demand more of the tribes than required by the letter and history of the Act might become a contemporary analogue to the BIA agent of an earlier period, who imposed tenets of personal conviction through the power of the white conqueror." 622.

Canby, William C. Jr. "Civil jurisdiction and the Indian reservation." Utah Law Review, v. 1973, no. 6: 206-232.

Concludes that "The tribal courts are an essential part of the machinery of Indian self-government; and the Supreme Court, as evidenced by Williams v. Lee, has espoused the policy of protecting tribal jurisdiction from state interference. If the tribes assert specific jurisdiction to adjudicate all reservation-connected matters, continued application of Williams v. Lee would protect that exercise of power from state intrusion. Jurisdictional decisions would become dependent upon the interconnection between the subject matter of the case and reservation affairs, rather than upon the Indian non-Indian identity of the suing party. Finally, tribes and their courts would be afforded the opportunity to develop an integrated legal policy along lines that they deem suited to the reservation setting. They deserve that opportunity". 232.

Surveys federal and tribal Indian law, describes the Oglalla Sioux Tribal Court of the Pine Ridge Reservation, the problems surrounding the appearance of professional attorneys in tribal courts, and the questions of whether the due process clause in the Indian Bill of Rights does and should include the right to counsel in civil cases. Concludes that "Allowing professional counsel would be inappropriate to Indian courts, cause confusion, discrimination and inequality before the law, be difficult or impossible to put into effect, and perhaps even enable economic exploitation of the tribe." 92. The Act as a whole is an exploitable threat to Indian sovereignty and should either be repealed or made optional for each tribe.

A detailed consideration of the Titles of the Act which apply to Indians (II-VII), concentrating on Title II (Rights of Indians). Discusses each paragraph of that section in relation to actual practices and circumstances of tribal courts. Finds: that non-Indian courts dealing with similar (petty) offenses frequently operate under less stringent restrictions than those imposed by this section on tribal courts; that many of the requirements are difficult to interpret in and inappropriate to a tribal Indian setting, incompatible with traditional Indian procedures, and unnecessary; and that the section will generally impose a difficult and unnecessary burden on tribal courts, and should be repealed. The other Titles (III-VII) "represent a sound approach to Indian policy for the future."

Constitution of 1848]. In The Consolidated Laws of New York.  
Annotated. Book 25: Indian Law. Brooklyn, N.Y. Edward Thompson  
Co., 1950. [On cover: McKinney's Consolidated Laws of New York...].

In 1848 the Seneca Indians of New York submitted a Constitution to  
the New York state legislature for approval. It was accepted, and  
the provisions for Peacemakers' Courts, which had civil jurisdiction  
over matters between reservation Indians, were made part of New York's  
Indian law. The tribal councils (which in addition maintained  
criminal jurisdiction over all offenses not enumerated in the Major  
Crimes Act) functioned as appellate bodies. The state of New York,  
however, assumed criminal jurisdiction over reservation Indians  
in 1948; and civil jurisdiction in 1950, by acts of the U.S. Congress.  
The 1950 book of Indian Law retains the provisions for Peacemakers'  
Courts, which are described in Article 4 (The Seneca Indians), sections  
46-52. p. 36-43.

\_\_\_\_\_. The impact of Public Law 280 upon the administration of justice on Indian reservations. by Ralph W. Johnson. v. 1 of Justice and the American Indian. NAICJA, 1974. reprint. and distrib. by NILL, 1975. 118 p.

Attempts to answer two questions in this area: "1) How can the damage caused by termination legislation be undone? and 2) How can the policy of self-determination... be effectively implemented? The history and present operational structure of state jurisdiction over Indian reservation serves to clarify the need for the remedies which are proposed. A separately-written background paper provides the perceptions of Washington State Indians about state assumption of jurisdiction. Important appendices offer for discussion some legislative guidelines and proposals on retrocession and related subjects." v.
